KAUAI CHAMBER OF COMMERCE IS ORGANIZED

Thursday last was red-letter day for Kauai, for on this day was organized "The Kauai Chamber of Commerce," an organization originating with the purpose of promoting the interests of the Garden Island. The meeting was called to order by Mr. Rohrig, who proceeded to inform the audience as to the intentions of the meeting. E. E. Mahlum was elected temporary chairman, and E. Behr of Kealia was elected temporary secretary.

Following these elections a general discussion followed, resulting in a motion by H. D. Wishard for the appointment of a committee on organization, being seconded by C. W. Spitz. This motion was withdrawn, upon a suggestion by Mr. Behr to the effect that a vote should first be taken on a name for the organization. A number of names were considered before a final decision was made in favor of "The Kauai Chamber of Commerce," "Jack" Coney having much to do with the final decision by remarking of the high-toned sounding of the name selected for the infant.

A discussion as to those eligible to membership next followed and it was thought advisable to admit any and all engaged in any honest and legitimate pursuit, to the organization. A committee then named by the chair, the name to be composed of Messrs. Rohrig, Wishard and Roendahl, for the purpose of formulating a program of procedure. A five minute recess was then declared in order to give the committee time in which to do its work.

At the end of the recess, the report of the committee was read and accepted without a dissenting vote. This report simply outlined the usual proceedings on such occasions, and immediately after reading same, Temporary Chairman Mahlum, declared the nomination open for the election of a permanent president. Messrs. Rohrig and Hofgaard were placed in nomination, the results being twelve in favor of Mr. Rohrig and five for Mr. Hofgaard. On taking the chair the newly elected, and first president of the organization made a brief address, expressing his thanks for the honor, and promising to do his utmost in the discharge of his duties, asking the support of the members in his task. Judge Hofgaard was unanimously elected as vice-president, Mr. Behr, being elected to the secretaryship likewise, while E. E. Mahlum, was made treasurer under the same conditions. As auditor, H. D. Wishard was unanimously elected to this office, thus giving the organization an excellent list of officers during its infancy.

A committee on by-laws and constitution, was appointed by the chair, Mr. Lydgate, Mr. Coney and Mr. Roendahl being named. The committee reported to the officers yesterday and on next Thursday morning, at 10 o'clock, Aug. 21, a general meeting will be held in the Lihue Hall at which time the report will be taken up, and the organization finally launched.

The chair also appointed a committee of three to call on prospective members throughout the island with a view of arousing interest in the organization. The committee is composed of W. H. Rice, Jr., H. D. Wishard and C. W. Spitz.

A. V. Roe, the I. W. W. organizer, is in Lihue again after serving a term in the Waimea jail. Roe seems as enthusiastic as ever and declares his intentions to hold a meeting in Lihue tomorrow then work his way toward Kealia where he expects to have a rousing meeting.

Mr. and Mrs. Edward Dekum, Honolulu's latest newlyweds arrived at Kilauea last Friday on the Likelike and will spend their honeymoon at the home of Mr. and Mrs. Myers.

DR. WISHARD GIVES INTER- ESTING TALK

A select crowd of Lihue's leading citizens, greeted Dr. Wishard at the Lihue Hall last Friday evening when he gave his very interesting lecture on Persia and its people. The doctor took his audience for a trip over land and sea, dwelling here and there on details which occasioned ripples of mirth throughout the audience. His description of his sea trip being especially amusing. The doctor paid high tribute to the missionary element in Persia, giving instances wherein personal sacrifices were made at the risk of their lives during an epidemic of Asiatic cholera which swept thousands of the natives from the face of the earth. "They have one thing in Persia," said the lecturer, "which does not exist in America, they call it graft," which remark indicated that the doctor had not been so long in the Persian country as to lose track of what was going on in his home country.

The lecture was preceded by a violin solo by Mrs. Dr. Putman, being a choice selection from Tales of Hoffman, which was rendered in the popular little violinist's inimitable manner. The lecture being concluded, Mrs. Putman again charmed the audience with a selection from the "Pink Lady," which met with loud and appreciative applause. Dr. Wishard will shortly leave for Honolulu, when after a short stay, he will return to his home in Wooster, Ohio.

AN INSANE DUMPING SPOT

Is Lihue to become a dumping ground for Honolulu's insane? This is a question that many of our citizens are asking themselves, since it has been learned that former Superintendent Iona of Waimea, who was adjudged insane, and through the Waimea district court, committed to the insane asylum in Honolulu has been permitted to live in Lihue only. Mr. Iona has been released from the asylum, and given a parole with the understanding that he is to live in Lihue or Honolulu, notwithstanding that he owns property in Waimea, and that that place should in every sense of the meaning, be the proper place for him to reside.

Shortly after Mr. Iona's commitment to the asylum, rumors began to be whispered about to the effect that he was simply railroaded. The fact that he was shortly released and returned to his trade as carpenter, doing most satisfactory work, rather added color to the rumor, and that he has been prohibited from again taking up his residence in his old home, would not only indicate further evidence of railroad, but the possibility of some of the Waimea influence having taken root in the official realms of the asylum. The man appears perfectly rational and friends who have known him for the last twenty years, declare that they can see no change in him. "If he is insane, why do the asylum officials allow him to go at liberty at all. If he is not insane, what right has the officials to interfere in any manner with his liberty," are questions the community would like to have satisfactorily answered. It appears to the average person, conversant with a few of the circumstances surrounding the case, that the whole matter is a frame-up in order to keep the man out of the district.

"TEDDY" IS AT HOME

With happiness depicted in every feature of his face, "Teddy" de Lacey, landed ker-plunk among his admiring friends last Wednesday morning. He had been absent for about four months, during which time he saw many sights and points of interest, including Niagara Falls. PROMPT ACTION PREVENTS HOG CHOLERA SCARE

Deputy Territorial Veterinary Surgeon, A. R. Glaisyer, deserves much credit for having so effectively checked what would have otherwise resulted in the most destructive epidemic of hog cholera in the history of Koloa district. The disease had gained such a foothold before the doctor learned of its existence that a number of hogs had died, but the doctor's promptness in dealing with the situation put a stop to its further progress.

He sent for serum, and while waiting for its arrival, established a quarantine, placed guards on the various roads leading out of the district, killed a number of animals which he considered incurable, burned a large number of pens, and thoroughly disinfected the rest of them. The guards remained on duty for a week or ten days, during which time they were the means of stopping the transportation of a number of infected animals from the district, by owners who fearing the destruction of their hogs, had attempted to remove them from the danger zone.

The serum having arrived, the doctor came to the conclusion that it would be just as secure and much more economical were he to delegate a man as "hog enumerator,"—that is, to have a man make a daily trip to every pig pen in the district, for the dual purpose of keeping a check on the condition and number of pigs. Doc. has been busy for the last week with his hypodermic serum gun, and reports no more new cases.

The county fathers deserve commendation for their promptness in aiding the vet. in his campaign of protection, by furnishing the required number of guards and the "hog census" man, who is none other than "Maile" the popular captain of the Koloa police force.

Another wedding, in which a member of the McBryde team figured, was that of John Gabriel, the clever catch, and Miss Bertha Parias, another of Elele's fair daughters, the same being a big surprise to the friends of both the contracting parties. Mr. and Mrs. Gabriel will make their home in Elele.

MAKAWELI WINS THE SECOND SERIES

Makaweli made a great ninth inning finish last Sunday at the Lihue park and defeated the Koloa 6-4. By winning the Makaweli's will play the McBrydes for the best two out of three games for the championship. The game was umpired by Eddie Fernandes and Chas. A. Rice who gave decisions which gave entire satisfaction. In the ninth inning, however, when Costa reached third he was apparently put out by Honan, but the umpire, E. Fernandes thought the ball was fielded back by an outsider and allowed the man his base. Altogether the game was well played and enjoyed by the fans. It lasted about one hour and forty minutes. Summary of the game follows:

1st Inning

Makaweli.—Costa made first on an error of Kuwamoto, Fernandes hit by a pitched ball, Thompson singled safely scoring Costa, Oneha struck out. H. Fassoth reached first on an error of Honan, Fernandes coming home on the play H. Fassoth stole 2nd, Raposo struck out and Lorenzo made a pretty catch of Kane's hot liner. Two runs.

Koloa.—Lorenzo worked Kruse for a pass, Futaro forced Lorenzo out, Fernandes to Costa making first safely. He then stole 2nd. Kuhlmann flew to H. Fassoth and Girvin struck out. No runs.

KAUAI FURNISHES FIRST JAPANESE GIRL IN TERRITORY TO GRADUATE FROM NORMAL

Kauai enjoys another distinction in Miss Michie Tanaka, a popular teacher in the Kaulamannu school, Honolulu who returned to Honolulu last Saturday, following a month's visit with Rev. and Mrs. Miyasaki in Kapaia. Born in Lihue, Miss Tanaka remained here until she reached the sixth grade, when, in order to satisfy her ambition to become a teacher, her parents moved to Honolulu where she shortly after, became enrolled in the Honolulu Normal. Here she showed marked intelligence, being capable of skipping a good portion of some of the lower grade

Miss Michie Tanaka, formerly of Lihue and the first Japanese girl to graduate from the Honolulu Normal School.

work. In 1910, she was graduated with a high record also being the first Japanese girl in the Territory to receive a diploma from the Normal School.

Since her graduation, like all dutiful daughters, Miss Tanaka has provided the comforts of life for her parents, having purchased a pretty little home for them with whom she lives—on Philip's Lane, Waikiki. Aside from the fact that Miss Tanaka is of an extremely scholarly nature, what she has accomplished is easily within the grasp of hundreds of our young girls, if they would but realize the results of well-spent efforts.

Miss Tanaka is a favorite among the teaching staff of both her Normal School and Kaulamannu.
